

### INSTALLATION AND USE

The **SAR 40** lift and collection stations are designed to handle clear water, rainwater, and wastewater from household drains like washing machines, dishwashers, and sinks, especially in situations where connection to the main sewer system is impractical or impossible due to distance or gravity constraints.

The **SAR 40** stations are compact and easy to install in basements, single-residence garages, or even underground.

### COMPONENTS INCLUDED

- ✳ **40 litres** polyethylene tank with a non-walkable and non-driveable cover.
- ✳ Single-phase submersible pump.
- ✳ Standard **5-metres** power cable .
- ✳ Swing check valve for models with drainage pumps only (for clear wastewater).

### AVAILABLE UPON REQUEST

- ✳ **SAR 40 lift station, equipped with a single-phase submersible pump with a float switch, based on your specific requirements.**
- ✳ **10-metres** power cable.
- ✳ Full-flow check valve (for external installation) designed for vortex and grinder pumps.

## EXAMPLES OF INSTALLATION

# SAR 100

## Lift and collection stations

### INSTALLATION AND USE

**SAR 100** lift and collection stations are designed to handle clear water, rainwater, and wastewater from household drains like washing machines, dishwashers, sinks, and toilets, especially in situations where connection to the main sewer system is impractical or impossible due to distance or gravity constraints.

The **SAR 100** stations are compact and easy to install either on the floor or underground, both inside and outside of single or two-family homes.

### COMPONENTS INCLUDED

- ※ **100 litres** polyethylene tank with a non-walkable and non-driveable cover.
- ※ Single-phase submersible pump.
- ※ Standard **10-metres** power cable.
- ※ Control panel (only for **SAR 100-TIGm 1.1** and **1.3**)

### AVAILABLE UPON REQUEST

- ※ **SAR 100** lift station, equipped with a single-phase submersible pump with a float switch, based on your specific requirements

### INSTALLATION AND USE

**SAR 250** lift and collection stations are designed to handle clear water, rainwater, and wastewater from household and civil drains like washing machines, dishwashers, sinks, and toilets, especially in situations where connection to the main sewer system is impractical or impossible due to distance or gravity constraints.

**SAR 250** stations are compact and easy to install, suitable for floor or underground placement, both indoors and outdoors of multi-unit buildings.

### COMPONENTS INCLUDED

- ※ **SAR 250** polyethylene tank with a non-driveable cover that can support pedestrian traffic up to a maximum of 100 kg.
- ※ Single-phase submersible pump.
- ※ Control panel (only for **SAR 250-TIGm 1.1** and **1.3**).
- ※ Standard **10-metres** power cable.

### AVAILABLE UPON REQUEST

- ※ **SAR 250 lift station, equipped with a single-phase submersible pump with a float switch, based on your specific requirements.**
- ※ Three-phase submersible pump
- ※ **Alarm kit** (Code: KSKIT-ALLARME) equipped with control panel, self-powered siren, and float
- ※ **300 mm extension kit** (Code No. KSKIT-308MA) for installing the "SAR" tank at greater depths
- ※ "SAR" Stations with check valve and ball valve in the discharge pipe.

### INSTALLATION AND USE

The **SAR 550** lift and collection stations are designed to handle clear water, rainwater, or dirty water from civil and industrial drains, where the sewer network is too far away or not accessible by gravity.

The **SAR 550** stations are compact and easy to install on the floor or underground, both indoors and outdoors of residential buildings, offices, public establishments, courtyards, and parking facilities, for sewage or rainwater disposal.

### COMPONENTS INCLUDED

- ✳ **550 litres** polyethylene tank with a non-driveable cover that can support pedestrian traffic up to a maximum of 100 kg.
- ✳ **Two single-phase pumps (without float switches) pre-installed and already connected to a control panel.**
- ✳ Standard **10-metres** power cable .
- ✳ Control panel (**E2** model).
- ✳ Three float switches with the following functions:
  - 1) Alternating activation of one of the two pumps
  - 2) Activation of the second pump at maximum level
  - 3) Shutdown of the pump at minimum level

### AVAILABLE UPON REQUEST

- ✳ **SAR 550 lift station, equipped with two single-phase pumps, based on your specific requirements.**
- ✳ **Three-phase submersible pump.**

### OPTIONAL

- ✳ **Alarm kit** (Code: KSKIT-ALLARME) equipped with control panel, self-powered siren, and float
- ✳ **300 mm extension kit** (Code No. KSKIT-308MA) for installing the "SAR" tank at greater depths
- ✳ "SAR" Stations with check valve and ball valve in the discharge pipe
